

Mira **crosses her arms.**

Mira: *"If I get stuck, I'm shooting my way out."*

🔥 **No turning back now. You climb in first.**

🔑 CRAWLING THROUGH THE VENTS – STEALTH CHECK

👂 The air inside is stale. Heavy. This place has been abandoned for years... but something still lingers.

- ◆ You crawl forward, careful not to make noise.
- ◆ The metal creaks under your weight—but holds.
- ◆ A dim glow flickers through the vent grates below.

💀 Then—you hear it.

🔊 A voice.

Muffled. Distorted. Coming from below.

???: *"...Wasn't supposed to wake up yet..."*

🔥 **Someone is here. And they're talking about something—or someone—that *shouldn't* be awake.**

NEXT MOVE – HOW DO YOU PROCEED?

1️⃣ **Stay Quiet & Keep Listening** – Gather more intel before moving.

2️⃣ **Peek Through the Grate** – Get a visual on who's talking.

3️⃣ **Move Past & Find a Safe Exit** – You don't want to get caught here.

💀 Your call, Joel.

Action Chosen: Stay Quiet & Keep Listening

🔥 No sudden moves. No noise. Just listen.

You **slow your breathing**, pressing closer to the vent grate.

The voices **become clearer**.

🔊 WHAT YOU HEAR...

???: "...Vitals stabilized. But the brain activity..."

???: "Higher than expected. He's dreaming again."

💀 Dreaming?

A second voice—**deeper, controlled. Someone in charge.**

???: "Keep him under. If he wakes up fully, we lose control."

💀 Someone is being kept unconscious. Someone dangerous.

Then—a faint, mechanical hum. A heartbeat monitor.

And finally—a name.

???: "...Graves isn't ready yet."

🔥 Vincent Graves is here. Alive. And restrained.

NEXT MOVE – WHAT NOW?

🔍 **Peek Through the Grate for Visual Confirmation** – See who's talking and what the room looks like.

🚪 **Move Past & Find an Exit** – You've heard enough. Time to reposition.

🎧 **Whisper to Naomi to Record the Audio** – Get evidence before making a move.

💀 What's your next step, Joel?

Action Chosen: Peek Through the Grate for Visual Confirmation

🔥 You need eyes on the situation.

Slowly—**carefully**—you shift forward, angling your head to see through the vent grate.

💀 The room below is a medical lab.

📌 WHAT YOU SEE...

- ◆ A large containment pod, filled with a thick, dark liquid.
- ◆ Monitors displaying vitals—erratic brain waves, but stable pulse.
- ◆ Three figures in lab coats, monitoring the equipment.
- ◆ One Hunter in tactical gear, armed, standing watch.

💀 Inside the containment pod...

🔥 Vincent Graves.

His **body** is suspended in the liquid, eyes closed, muscles twitching involuntarily.

He's hooked to machines—IVs, mana conductors, neural suppressors.

They're keeping him under.

Keeping him contained.

💀 But why?

NEXT MOVE – WHAT DO YOU DO?

☐ **Stay Hidden & Keep Watching** – They might reveal more about why he's being held.

☐ **Whisper to Naomi to Record This** – If you need proof later, you'll have it.

☐ **Signal Dante to Get Ready to Strike** – This is your best shot at freeing Graves.

🔥 What's your next move, Joel?

Action Chosen: Signal Dante to Get Ready to Strike

🔥 You've seen enough. If you wait too long, you lose the advantage.

💀 You're taking Graves now.

You shift back slightly in the vent, locking eyes with Dante.

With precise hand signals, you communicate the plan:

👉 (Hold position.)

👉 (Three scientists, one guard.)

👉 (We strike fast and hard.)

Dante nods, smirking. He's ready.

Naomi leans in, whispering.

Naomi: *"You sure about this? If we wake him up, we don't know what we're dealing with."*

Mira grips her gun, jaw tight.

Mira: *"And if we leave him, he stays their weapon."*

🔥 No more debate. It's go time.

🔑 BREAKING INTO THE MEDICAL LAB – PLAN OF ATTACK

💀 Objective: Eliminate the threats & free Vincent Graves.

Choose Your Entry Strategy:

1️⃣ **Drop Down & Take Out the Guard First** – The biggest threat needs to go first.

2️⃣ **Disable the Scientists First** – Make sure they can't interfere with Graves' release.

3️⃣ **Shoot Out the Lights & Attack in the Dark** – Use chaos to your advantage.

🔥 What's your first move, Joel?

Action Chosen: Shoot Out the Lights & Attack in the Dark

🔥 You fight best in the shadows. If they can't see you, they can't stop you.

You signal Dante—💡**(Kill the lights.)**

He grins, already knowing what to do.

💀 Showtime.

🔑 EXECUTING THE ATTACK – IN THE DARK

👉 You shift your weight, drawing your bow.

🏹 TWIP—TWIP—TWIP!

💥 SHATTER!

💠 The overhead lights explode in a burst of sparks.

💠 The lab plunges into darkness.

💠 Confused shouting erupts below.

💀 They have no idea what's coming.

🚒 GUARD: *"What the hell—?!"*

🚒 SCIENTIST: *"Who turned out the—AAGH!"*

🔥 Dante is already moving. A blur in the shadows.

👉 A knife flashes—one scientist drops.

💥 Mira fires—silenced shot to the leg. The guard staggers.

You drop down into the chaos, landing in a crouch.

💀 Time to finish this.

FINAL COMBAT CHOICE – WHO DO YOU HANDLE FIRST?

1️⃣ **Eliminate the Guard Before He Can Regroup** – He’s the biggest threat.

2️⃣ **Secure the Scientists & Stop Them from Alerting Backup** – You don’t need more enemies.

3️⃣ **Get to Graves & Start Freeing Him** – No time to waste.

Action Chosen: Secure the Scientists & Stop Them from Alerting Backup

🔥 If they call for reinforcements, this fight gets a lot worse.

💀 You move fast.

The **scientists are panicking in the dark**, scrambling toward the consoles—probably to **hit an alarm** or **reinforce Graves’ containment**.

🔴 **NOT HAPPENING.**

🔑 NEUTRALIZING THE SCIENTISTS

👉 You dash forward, grabbing the nearest scientist by the collar—

💥 **SLAM!** You drive him into the console, knocking him out cold.

🏹 **TWIP!** Your second arrow pierces a control panel, frying the system.

🔴 **SCIENTIST #2:** “No, no—”

🔥 Dante moves in, knife flashing.

💀 **SCIENTIST DOWN.**

 **SCIENTIST #3 (trembling):** *"P-please! We were just following orders!"*

Joel (coldly): *"Then stay down and shut up."*

 **Threat neutralized. No alarms. No backup.**

Mira **kicks away a fallen radio, exhaling.**

Mira: *"That was clean."*

Dante (grinning): *"Almost too easy."*

 **Now only one threat remains.**

THE FINAL ENEMY – THE GUARD

 **He's still standing. Gun raised.**

 **But he's outnumbered. And he knows it.**

 **GUARD:** *"You have no idea what you're messing with."*

 **You lock eyes with him.**

FINAL CHOICE – HOW DO YOU TAKE HIM DOWN?

☐ **Shoot First – End it before he can react.**

☐ **Disarm Him & Knock Him Out – Keep him alive for intel.**

☒ **Give Him a Chance to Surrender – Maybe he doesn't want to die for Kain.**

 **Your call, Joel!**
