

Dante **grins, stepping closer.**

Dante: *"Kinda funny, huh? The guy you built your career protecting just signed your death warrant."*

Naomi **tilts her head, studying Ryker.**

Naomi: *"The way I see it, you've got two options."*

🔑 **Option 1: Say nothing. Kain finds you eventually. And you die alone.**

🔑 **Option 2: Work with us. Help us destroy him. And *you* get to be the one who buries him first.**

💀 **The silence stretches.**

Then—🔥 **Ryker exhales slowly.**

She lifts her gaze—and **smiles.**

Not a **smirk. Not arrogance.**

🔥 **Something colder. Sharper. A woman *choosing violence.***

Helena Ryker: *"...Let's burn the bastard."*

💀 **She's in.**

🔑 **INTERROGATION SUCCESS – NEW INTEL UNLOCKED**

✅ **KAIN'S LOCATION – CONFIRMED** – A hidden fortress in an abandoned military complex outside the city.

✅ **SECURITY DETAIL – MAPPED** – Automated defenses, elite Hunter squads, no easy entry.

Dante **grins, slapping your shoulder.**

Dante: *"Damn, rookie. You really are dangerous."*

Naomi **exhales, shaking her head.**

Naomi: *"Yeah. And now? We've got a war to plan."*

💀 It's time to take the fight to Kain.

Action Chosen: Uncover Kain's "Secret Project" First

🔥 If even Kain is afraid of it, you *need* to know what it is.

💀 Walking into a war blind is suicide. You find the weapon *before* the final battle.

🔑 RYKER REVEALS THE SECRET

🔥 Helena Ryker watches you carefully. Testing. Measuring.

Then, she **leans forward, voice quiet.**

Helena Ryker: *"Kain's been building something. Something that makes even him nervous."*

Joel (firmly): *"What is it?"*

She **taps Naomi's tablet, pulling up a classified file.**

📄 **PROJECT NOX – BLACKSITE OMEGA-2**

📄 **Status: ACTIVE** – Highly classified bioweapon development.

📄 **Subject Type: Hybrid Evolutionary Combat Unit.**

🔥 You exchange a look with the team.

Naomi (wide-eyed): “Wait... ‘Hybrid Evolutionary Combat Unit’? That sounds like—”

💀 Graves.

Mira curses under her breath.

Mira: “It’s more than just him. Kain’s been trying to mass-produce what he did to Graves.”

🔥 He’s not just building an army. He’s trying to create something worse.

Ryker (coldly): “And if he succeeds? No one will stop him.”

💀 If you don’t destroy Project NOX, the war is *already lost*.

🔑 NEXT STEP – STOPPING PROJECT NOX

📍 LOCATION: BLACKSITE OMEGA-2

🔑 SECURITY LEVEL: EXTREME

🔑 OBJECTIVE: Destroy the project before Kain can use it.

🔥 You need to shut it down—permanently.

🔑 CHOOSE YOUR INFILTRATION METHOD

◆ ☐ Go in Full Assault – Iron Fangs and all. No survivors. No mercy.

◆ ☒ Infiltrate and Plant Explosives – Destroy the facility *from within*.

◆ ☐ Steal the Research Data Before Destroying It – If Kain wants it, it might be useful to *you*.

💀 This is the last chance to stop Kain’s nightmare. What’s your move, Joel?

Action Chosen: Infiltrate and Plant Explosives

🔥 No drawn-out battle. No chance for them to recover. You *erase* Project NOX before Kain can use it.

💀 You're not just shutting it down. You're *burying* it.

🔑 FINAL OBJECTIVE – DESTROY BLACKSITE OMEGA-2

📍 LOCATION: Underground Hunter Association Research Bunker – Classified Site

📍 SECURITY: Elite Hunter Squads, Automated Defenses, Encrypted Systems

📍 PRIMARY TARGET: Project NOX Experimental Labs

📍 SECONDARY TARGETS: Power Core, Data Servers, Escape Routes

🔥 The plan is simple:

1️⃣ Infiltrate undetected.

2️⃣ Plant explosives on key targets.

3️⃣ Escape before detonation.

💀 If you succeed, Kain *loses* his ultimate weapon. If you fail, he unleashes something the world can't stop.

🔑 INFILTRATION TEAM – CHOOSE YOUR STRIKE FORCE

💠 1️⃣ Stealth Team – Joel, Dante, Naomi, Ghost (Silent, no backup)

💠 2️⃣ Assault Team – Joel, Dante, Mira, Iron Fang Strike Squad (Loud, but stronger)

💠 3️⃣ Hybrid Team – Joel, Dante, Mira, Naomi (Balanced, flexible approach)

🔥 Your choice, Joel—who do you take into the fire?

🔥 No backup. No reinforcements. Just four ghosts moving in the dark.

💀 If they never see you coming, they never get the chance to stop you.

🔑 NIGHT OF THE INFILTRATION – BLACKSITE OMEGA-2

 The facility is hidden deep beneath an abandoned industrial plant.

 Exterior: Decrepit warehouses, rusted pipes, false signs of decay.

 Reality: A fully operational, high-security underground Hunter Association lab.

 Access Points: Surface elevator, emergency ventilation shafts, underground waste tunnels.

 No alarms. No mistakes. Just a clean entry.

Ghost crouches beside you, scanning with a high-tech visor.

Ghost (whispering): *“Four guards at the surface entrance. No visible cameras. Underground access will be cleaner.”*

Naomi **nods, checking facility schematics.**

Naomi: *“Ventilation shafts run deep, but they connect to every major sector. We can reach the lab unseen.”*

Dante **cracks his neck, smirking.**

Dante: *“Rooftop entry is faster. Riskier, but gets us inside before they even know we’re here.”*

 Every path has its risks. But you only get one chance.

CHOOSE YOUR INFILTRATION ROUTE

◆ **1 Ventilation Shafts** – Slow, but completely silent. No combat required.

◆ **2 Underground Waste Tunnels** – Unstable, but leads directly to the power core.

◆ **3 Rooftop Entry & Drop Down** – Fast, but high risk of detection.

 Your call, Joel—how do you get inside?

Action Chosen: Underground Waste Tunnels

 No alarms. No guards. Straight to the *heart* of the facility.

💀 It's risky—unstable tunnels, unknown hazards—but if it works, you'll be inside before they know what hit them.

🔑 ENTERING BLACKSITE OMEGA-2 – WASTE TUNNELS

👉 The entrance is an old, rusted maintenance hatch near the edge of the facility.

🔑 A faded Hunter Association logo barely visible beneath layers of grime.

🔑 Naomi hacks the lock, bypassing security in seconds.

🔑 A deep, dark tunnel stretches below.

🔥 No turning back now.

Ghost **slides in first, visor glowing faintly.**

Ghost (whispering): *"Tunnel is clear—for now."*

Dante **drops in next, boots landing silently.**

Dante: *"Smells like death. You sure this isn't an old graveyard?"*

Naomi **grimaces, following last.**

Naomi: *"Would that make you more or less comfortable?"*

🔥 You move in, silent as shadows.

🔑 DEEP UNDERGROUND – UNEXPECTED THREAT

📊 MISSION STATUS: PROGRESSING

💠 Primary Target: Project NOX Lab – Ahead.

💠 Secondary Target: Power Core – Directly beneath you.

💠 Obstacle: Tunnel structure is *unstable*.

🚨 Then—Ghost freezes.

Ghost (low voice): *"Stop."*

💀 You halt immediately.

🔑 The ground beneath you—thin. Weak. Something is *below*.

🔑 Faint sounds—like... breathing?

💡 This isn't just a waste tunnel. It's connected to *something else*.

Naomi **whispers**, scanning the blueprints.

Naomi: *"These tunnels were repurposed. This area doesn't exist on the original facility plans."*

💀 Kain has been hiding *more* than just Project NOX.

🔑 NEXT MOVE – WHAT DO YOU DO?

◆ ☐ Investigate the Sounds Below – If something's down there, you *need* to know what it is.

◆ ☒ Avoid It & Stay on Mission – No distractions. Get to the lab, plant the explosives.

◆ ☒ Set a Trap in Case Something Comes Up – You don't have time to explore, but you *can* prepare.

💡 Your call, Joel. Play it safe, or dig deeper?
