

1 **Speed** – Show him your reflexes.

2 **Precision** – Prove you can hit your mark.

3 **Stealth** – Test your ability to disappear.

What's your move, Joel?

TEST OF SPEED – DODGE OR DIE

Dante doesn't wait. The moment you step forward—

⇒ **TWANG!**

An **arrow flies straight at your chest.**

You **throw yourself sideways**, barely avoiding it. Before you can recover—

⇒ **TWANG! TWANG!**

Two more arrows streak toward you. **No warning. No pattern.**

The Rules:

- You must **dodge five arrows in a row.**
- If you get hit, the test restarts.
- **Dante won't hold back.**

You **grit your teeth** and prepare yourself. **This isn't just speed—it's survival.**

First Arrow:

1 **Sidestep Right** – Quick and simple.

2 **Drop Low** – Harder to predict.

3 **Dodge Forward** – Aggressive, closes the distance.

What's your move, Joel?

ChatGPT said:

Action Chosen: Sidestep Right

👉 TWANG!

You **shift right**, and the arrow **whistles past your shoulder**, striking the wooden crate behind you. **One dodge down.**

Dante doesn't give you time to breathe.

👉 TWANG!

Second arrow—this one is lower, aimed at your ribs.

Second Arrow:

❏ **Jump Back** – Create distance, but risk being off-balance.

❏ **Drop Low** – Let the arrow pass over you.

❏ **Spin Left** – Keep your momentum going.

ChatGPT said:

Action Chosen: Spin Left

👉 TWANG!

You twist your body, **spinning left just as the arrow zips past your ribs**. It's close—**too close**—but you keep your balance.

Dante says **nothing**. But you swear you see the tiniest nod of approval.

◆ **Two dodges down. Three to go.**

No time to think. **Third arrow incoming.**

👉 TWANG!

This one is different—**faster, aimed straight at your head.**

Third Arrow:

1️⃣ **Duck Fast** – Drop instantly, let it pass overhead.

2️⃣ **Side Flip Right** – High-risk, high-reward evasive move.

3️⃣ **Lean Back** – Dodge like a blade barely missing your face.

ChatGPT said:

Action Chosen: Duck Fast

👉 TWANG!

You **drop instantly**, feeling the arrow **slice through the air just inches above your head**. It slams into a crate behind you with a solid **THUNK**.

◆ **Three dodges down. Two to go.**

You're breathing harder now, but you **stay focused**.

Dante doesn't stop. **Fourth arrow—this one's unpredictable.**

👉 TWANG!

It's a **fake-out**—he fires **two arrows at once**. One aimed for your **chest**, the other at your **legs**.

Fourth Arrow(s):

1️⃣ **Jump Over Both** – Risky, but clears both shots.

2️⃣ **Dodge Left, Then Drop** – A double-move to outmaneuver them.

3️⃣ **Deflect with Your Bow** – Use your weapon instead of dodging.

ChatGPT said:

Action Chosen: Deflect with Your Bow

👉 TWANG! TWANG!

Your instincts **kick in**. Instead of dodging, you **swing your training bow**, knocking the first arrow off course. The second arrow is lower—you **shift your leg just in time, letting it bury into the ground instead of your knee**.

🔥 **CLACK!** The sound of wood-on-wood echoes in the warehouse.

For the first time, **Dante actually smirks**.

Dante: "*Clever.*"

◆ **Four dodges down. One left.**

You're sweating, your heart is pounding, but you're still **standing**.

👉 TWANG!

Final shot. This one is **fast—faster than any before. A direct kill shot**. Dante isn't holding back anymore.

Final Arrow:

1 **Step INTO It** – Close the gap last second and make the shot overshoot.

2 **Drop & Roll** – Go low, roll away to reset positioning.

3 **Blind Trust** – **Don't move until the very last second.**

What's your final move, Joel?

ChatGPT said:

Action Chosen: Step INTO It

👉 **TWANG!**

Instead of **dodging away**, you **lunge forward**—straight toward the arrow.

For a split second, your mind **screams** at you to stop. Every instinct says you're about to get impaled. **But you trust your timing.**

At the **last possible moment**—

🚀 **WHOOSH!**

The arrow **whizzes past your ear, missing you by a hair.**

It overshoots. You're safe.

The warehouse is **dead silent.**

You slowly straighten, heart still pounding. **Five shots. Five dodges. You did it.**

Dante is **staring at you**, unreadable. Then, he exhales through his nose, shaking his head slightly.

Dante: *"You're either fearless or suicidal."*

A pause. Then—

Dante: *"Either way, you pass."*

🔥 **TEST OF SPEED: COMPLETE.** 🔥

Results:

🏆 **+1 DODGE REFLEX** – Your ability to read attacks has improved.

🏆 **+1 RESPECT from Dante** – He's starting to believe you might actually survive his training.

Dante slings his bow over his shoulder.

Dante: *"One down. Two to go."*

He nods toward the next training area.

Dante: *"Now let's see if you can actually hit something."*

NEXT TEST:

1️⃣ **TEST OF PRECISION** – Prove you can land your shots under pressure.

2️⃣ **TEST OF STEALTH** – Show that you can strike unseen.

What's your next move, Joel?

ChatGPT said:

TEST OF PRECISION – HIT YOUR MARK 🎯🔪

Dante leads you to the next training area: **a set of moving targets, rigged to ropes and pulleys**. Some slide horizontally, others bob up and down. A few **change speed at random**.

A **shortbow** and a **quiver of blunt arrows** rest against a crate.

Dante gestures toward them.

Dante: *"A rogue who can't land a shot is just a thief running with a stick. You have three shots. Hit at least two moving targets, or you fail."*

He **crosses his arms, watching**.

Dante: *"Oh, and rookie?"*

He flicks a **small hourglass** onto a nearby crate. The sand starts flowing.

Dante: *"You've got ten seconds."*

💀 No time to overthink. You grab the bow and nock your first arrow.

First Shot – Target Moving Left to Right

You have one chance. **How do you adjust?**

1️⃣ **Lead the Target** – Aim slightly ahead of its path.

2️⃣ **Fast Draw & Snap Shot** – No calculations, pure instinct.

3️⃣ **Wait Until the Last Moment** – Fire just before it exits range.

What's your shot, Joel?

ChatGPT said:

Action Chosen: Fast Draw & Snap Shot

You **don't waste time calculating**. No hesitation—**just pure instinct**.

 **THWIP!**

The arrow **flies**.

For a split second, you think you missed. Then—

 **THUD!** The arrow slams into the moving target, knocking it backward. **Direct hit.**

Dante doesn't react much, but you catch a quick **glance at the hourglass**.

Seven seconds left.

Dante: *"Not bad. Let's see if you can do it again."*

Second Shot – Target Moving Erratically

This one **zigzags unpredictably**. No steady path. **If you hesitate, you'll miss.**

1 **Trust Your Instincts** – Fire where you *feel* it will be, no overthinking.

2 **Track the Pattern** – Try to watch its movement for a second before firing.

3 **Take the Risky Trick Shot** – Aim for a ricochet off a crate to hit it from an angle.

What's your move, Joel?
